

/speckit.ext.docgen

Generated from extension/commands/docgen.md

Artifact type: other

Use the developer's active agent session to read the target markdown artifact and produce structured JSON matching the documented schema.

Table of contents

/speckit.ext.docgen

Body

/speckit.ext.docgen

Use the developer's active agent session to read the target markdown artifact and produce structured JSON matching the documented schema. Then POST the structured payload to /api/artifacts/ingest-structured.
